

Where do all of our crazy names for food come from?

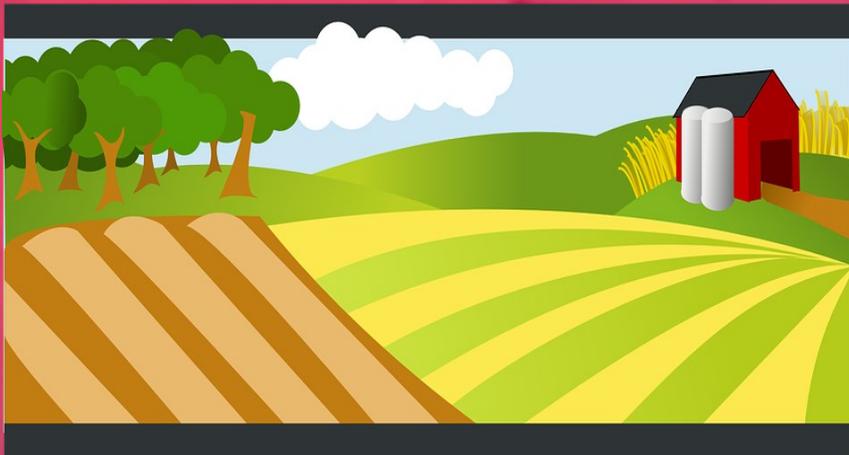

# WORDS OF MOUTH

## This month: "Baker's Dozen"

A "baker's dozen" is 13, rather than 12.

The term comes from way back in the 13th century, when bakers in England could be punished severely for not giving their customers as much bread, by weight, as they had paid for. To avoid the punishment, bakers would include an extra piece in each dozen, just to be sure!

When kids are served carrots or red pepper strips or an apple right before dinner-time or as a first course at dinner, they are more likely to eat the fruit and veggies given to them. They're also less likely to overindulge on less healthy parts of their meal -- and they may even find that they don't have room for dessert!
